# ADDENDUM: GUIDANCE FOR EXEMPT POSITIONS APPROVING REQUISITIONS AND HIRING

This Guide is For:

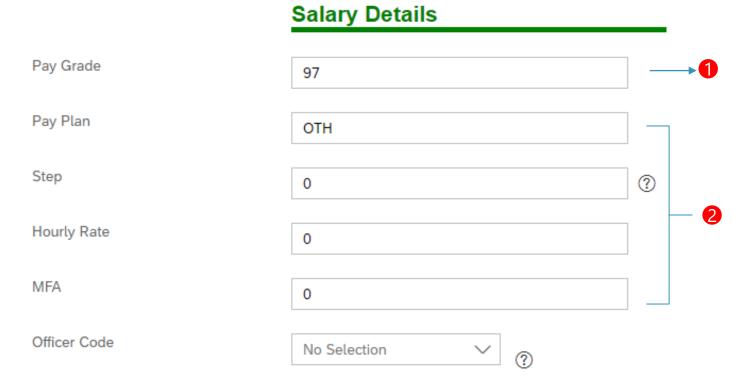

Field HR Staff

## ADDITIONAL GUIDANCE FOR EXEMPT POSITIONS

#### **Exempt Position Salary Details**

The Pay Grade field under Salary Details may not populate for all exempt positions. In these instances, **manually enter the numeric pay grade; do not write "Exempt."** 

If pay grade cannot be determined at the time the requisition is created, Field HR will need to ask their TA Specialist to update this field with the appropriate numeric value prior to moving a candidate into "Hired" status. A blank field or inaccurate value will cause a feed rejection. If this happens, TA will need to re-open the requisition to update the field, and the new hire will need to be pushed through the feed a second time.

Pay Plan, Step, Hourly Rate, and MFA should self populate for exempt job codes. If they do not, you can enter "OTH," "0," "0" and "0" respectively to complete those fields.

If any fields aside from "Officer Code" are left blank, a feed rejection will occur when a candidate is hired. Ensure that these fields display the correct values prior to moving a candidate into "Hired" status. If any fields are blank, please notify your TA Specialist so they can enter the values.
